

## Structure Fire

Tuesday, December 22, 2009:

This morning around 03:00 hours Kaysville Fire crews were alerted to a structure fire near 1500 South 500 East. Three occupants were inside the home when the fire started and dispatch notified them to exit their home.

Engine 61, Engine 62, Heavy Rescue 61 and Ambulance 61 responded to find a fire that started near the furnace. Luckily flames melted plastic water piping which leaked water extinguishing the fire before the Fire Department arrived on scene.

Pictures will be posted soon.
